PRINCIPAL PRODUCT DESIGNER, VANCOUVER, BC

Anastasiia Marchenko

LinkedIn: anastasiia-marchenko | Email: hi.marchenko@gmail.com | Portfolio: marchenko.design | Figma: @anamarchenko | Dribbble: A_March

Product designer with 11 years of experience shaping product direction and taking complex web and mobile products from concept to launch. Led platform redesigns, built new products and guided designers across healthcare, enterprise software and global collaboration. I combine strategic leadership with hands-on design, partnering with founders, product, and engineering teams to turn insights into product decisions.

EXPERIENCE

Senior Product Designer | Eventbase

June 2026 - Present

- Leading design for a major platform relaunch across enterprise event management tools and attendee apps, partnering with product and engineering to shape the experience and release priorities.
- Redesigning event setup, attendee navigation and content discovery, connecting organizer workflows with the experiences they create for attendees.
- Establishing web and mobile design systems and white-label theming standards to support consistent implementation across client apps.

Principal Designer | Untether Labs

October 2025 - May 2026

- Owned design direction across a healthcare workforce platform, partnering with the founder and engineering to shape priorities. The platform reported a 90% reduction in customer scheduling time.
- Used onsite interviews, remote research and usability testing to design consistent workflows, clearer information architecture and new appointment, filtering, forecasting and reporting capabilities.
- Designed an AI assistant that helped schedulers investigate staffing needs and coverage gaps.
- Designed and launched a provider mobile app for managing schedules, availability and time tracking.

Principal Designer | GameofGo

September 2024 - February 2025

- Led product strategy and design for a Swiss startup building an online Go platform, using player research and competitive analysis to define a beginner-first experience.
- Translated findings into MVP scope, information architecture and core learning and gameplay journeys, alongside brand identity and monetization exploration.

Lead Product Designer | World Economic Forum (via Windmill)

December 2021 - January 2024

- Led design from discovery to launch for Forum Spaces, a shared platform and white-label mobile app for global initiatives, guiding a team of designers and researchers.
- Aligned stakeholders around a shared product direction, prioritizing initiative-owner tools for the initial release and shaping subsequent improvements through research, usability testing and workshops.
- Reached 65+ initiatives and approximately 500,000 unique visitors in the platform's first 18 months; the platform now supports 1,000+ organizations and 200+ initiatives.

Senior Product Designer | Windmill

April 2019 - December 2021

- Simplified workflows across the World Economic Forum's internal platform, supporting operations and event preparation.
- Led design sprints and product design for the Global Plastic Action Partnership's policy creation platform, now supporting plastic-policy development across 17 countries.
- Led a venture project from research to concept with 4 designers and researchers.
- Designed Brandlive's public website and product experience; the company was named among Fast Company's World's 50 Most Innovative Companies in 2021.
- Redesigned a web acquisition tool, simplifying workflows for collecting and analyzing document updates from multiple sources to build a knowledge database.

UI/UX Designer | 340Basics

April 2017 - November 2017

- Led a comprehensive redesign of a pharmacy management platform, simplifying complex workflows and reducing task completion time by 50%.

Product Designer | Freelance

January 2016 - October 2025 (Alongside employed roles)

- Delivered product launches and redesigns for clients under NDA, taking projects from research and concept development through interface design and developer handoff.

Graphic and Web Designer | IT Bootcamp Fabrika

June 2015 - May 2016

- Created a brand identity and all collateral materials for a new IT conference, attracting 200+ participants and 25 sponsors.

SKILLS

Product strategy • Stakeholder alignment • Interaction design • Information architecture • Web & mobile design • User research • Usability testing • Design systems • Mentoring

EDUCATION

Master of Business Administration | Lviv Polytechnic National University

Bachelor's Degree in Information Services | Odesa National Polytechnic University

Fine Arts (6-year program, extracurricular education) | School of Arts, Odesa

PROFESSIONAL DEVELOPMENT

Strategic Communication (Stanford GSB Lecturer) • Google Stakeholder Management • Dare to Lead™ Trained • UBC Sauder Business Fundamentals • Designing for complex UI • multiple certifications from Interaction Design Foundation
